BRNO UNIVERSITY OF TECHNOLOGY (VUT) ENHANCES FLIGHT TRAINING CAPABILITIES BY ACQUIRING S311 FNPT II SIMULATOR

Dübendorf, Switzerland – December 2024 – Brno University of Technology (VUT) has made a significant addition to its aviation training program by purchasing the ELITE S311 FNPT II flight simulator.

This state-of-the-art simulator, which is equipped with the advanced OEM Garmin GTN750 GPS, will elevate the university's pilot training capabilities, providing students with hands-on experience in a highly realistic and immersive environment.

The S311 FNPT II features a three-channel curved visual system, offering a 180-degree field of view for enhanced situational awareness and realism during training. In addition, it boasts two different aircraft instrument configurations, allowing students to train in both Single Engine Piston (SEP) and Multi-Engine Piston (MEP) aircraft settings.

The simulator includes both glass cockpit and analogue instrumentation options, providing flexibility to meet a variety of training needs and preparing pilots for a wide range of cockpit environments.

Installation, as well as hands-on local support & maintenance, will be covered by ELITE's Prague Office in order to ensure the best possible service to our customers.

Rene Huddlestone, Director of Marketing & Sales at ELITE Simulation Solutions, expressed his excitement about the partnership with Brno University of Technology, saying:

"We are thrilled to welcome another prestigious academic institution to our growing customer base. ELITE has always adhered to our credo of offering the best price-to-value ratio on the market. This sale is just another example of how important it is to have your ear on the market, listen to what customers want, and develop products accordingly to meet their requirements."

The addition of the S311 FNPT II flight simulator will enable Brno University of Technology to provide its students with cutting-edge flight training technology, further solidifying its position as a leader in aviation education.

About Brno University of Technology

Brno University of Technology, one of the largest and most prestigious technical universities in the Czech Republic, offers a comprehensive range of programs across engineering,

science, and technology disciplines, including a robust aviation program aimed at developing the next generation of professional pilots.

About ELITE Simulation Solutions

ELITE Simulation Solutions is a leading global provider of flight simulation products, catering to aviation training institutions, flight schools, and professional pilots. Known for delivering high-quality and cost-effective solutions, ELITE's products are used worldwide to enhance pilot training programs and ensure compliance with industry standards.
